

Quad Jenny Trailer

Dispense four wires or up to eight wires using a second unit hooked in tandem

Contractor Model Wire Jenny Rotors

4 x Rotors contractor model wire jennys featuring a new rotor design for easier centering & nesting of wire coils to assist with smoother decoiling. Each rotor has a tapered roller bearing to minimise wear for high volume use.

Swing Over Arm

Features swing arm design for easy individual rotor reloading. Suitable for dispensing up to 1000M Coils

Trailer Towbar Attachment

Easily attaches to vehicle tow bars and can be attached to a second Quad Jenny Trailer for running up to 8 wires

Galvanised Steel Construction

Hot dipped galvanized steel for enhanced corrosion protection and increased durability for a longer service life.

New Zealand Made

Proudly 100% New Zealand designed and manufactured by Strainrite, ensuring leading technology and premium quality.

Part No. FTJ00010
